**INTERNATIONAL SCHOOL OF MATHEMATICS «GUIDO STAMPACCHIA»**

72nd Workshop: **NEW TRENDS IN PROPAGATION OF LINEAR AND NONLINEAR WAVE PHENOMENA**

ERICE-SICILY: 2 – 7 SEPTEMBER 2019

Sponsored by the: Italian Ministry of Education, University and Scientific Research • Sicilian Regional Government • ANR-16-CE40-0013 • ANR-16-CE40-0020-01 • I.U.F. • ERC 2014 669689 • HADE • University of Pisa • Istituto Nazionale di Alta Matematica (GNAMPA)

**PROGRAMME AND LECTURERS**

| Dispersive Partial Differential Equations | • L. FANELLI, Università di Roma “Sapienza”, IT
| Hamiltonian Partial Differential Equations with Random Data | • R. FEOLA, Università de Nantes, FR
| Birkhoff Normal Forms and Kolmogorov-Arnold-Moser Theory | • V. GEORGIEV, Università di Pisa, IT
| Invariant and Quasi Invariant Measures | • F. IANDOLI, Università de Nice, FR
| Water Waves | • A. MAIOCCHI, Università di Padova, IT
| • R. ADAMI, Politecnico di Torino, IT | • R. MONTALTO, Università di Milano, IT
| • V. BANICA, Université Paris VI, FR | • G. PONCE, University of California Santa Barbara, CA, US
| • D. BAMBUSI, Università di Milano, IT | • M. PROCESI, Università di Roma III, IT
| • P. D’ANCONA, Università di Roma “Sapienza”, IT | • R. TRISTAN, University of Edinburgh, UK
| • J.-M. DELORT, Université Paris XIII, FR | • F. ROUSSET, Université d’Orsay, FR
| • F. DE LA HOZ, Universidad del Pais Vasco, ES | • C. SAFFRIO, University of Zürich, CH
| • S. DOVETTA, Politecnico di Torino, IT | • C. SUN, Université de Cergy-Pontoise, FR
| • F. FANELLI, Université Claude Bernard Lyon 1, FR | • M. TARULLI, Technical University of Sofia, BG
| • F. GIANNESSI | • I. TRISTANI, École Normale Supérieure, FR
| • F. IANDOLI, Université de Nice, FR | • G. BRUNO, Université Paris VI, FR
| • V. ROUSSET, Université d’Orsay, FR | • G. BUTTAZZO
| • L. VEGA | • M. TARULLI
| • G. PONCE | • M. TARULLI
| • V. VENZLAUER | • M. TARULLI
| • R. MONTALTO | • L. VEGA
| • D. TAMASEGHE | • G. BUTTAZZO
| • V. ROUSSET | • L. VEGA
| • R. FEOLA | • G. BRUNO
| • V. BRUNO | • L. VEGA
| • F. ROUSSET | • G. BUTTAZZO
| • F. IANDOLI | • M. TARULLI
| • S. DOVETTA | • E. TRUSKOVSKII
| • P. D’ANCONA | • E. TRUSKOVSKII
| • V. BANICA | • G. PONCE
| • J.-M. DELORT | • M. PROCESI
| • F. DE LA HOZ | • R. TRISTAN
| • S. DOVETTA | • F. ROUSSET
| • F. FANELLI | • V. ROUSSET
| • F. GIANNESSI | • R. FEOLA
| • F. IANDOLI | • V. BRUNO
| • V. ROUSSET | • L. VEGA
| • R. MONTALTO | • F. ROUSSET
| • D. TAMASEGHE | • F. ROUSSET
| • V. BRUNO | • L. VEGA
| • G. BUTTAZZO | • L. VEGA
| • L. VEGA | • G. PONCE

**PURPOSE OF THE WORKSHOP**

The Workshop aims at presenting the state-of-the-art and current research directions in evolution equations with special attention to Dispersive and Hamiltonian Partial Differential Equations. The models of interest arise from mathematical-physics: Nonlinear Schrödinger Equation, Korteweg-de Vries Equation, Nonlinear Klein Gordon Equation, Water Waves, to quote a few of them. In the last four decades, the field has attracted the attention of the mathematical community and fundamental progresses have been done from several viewpoints: local/global Cauchy theory, long-time existence, asymptotic behaviour, linear/nonlinear scattering, stability/instability of solutions, construction of invariant/quasi-invariant measures, probabilistic approach for random initial data, etc.

The methods used to attack the problems are at the interface between Functional Analysis, Harmonic Analysis, Number Theory, Microlocal Analysis, Probability, Spectral Theory. Most of the techniques will be discussed during the meeting, and moreover a lot of attention will be devoted to present open problems and conjectures.

**APPLICATIONS**

Persons wishing to attend the Workshop should apply by sending an e-mail to the Co-Director of the Workshop:

Professor Nicola Visciglia
University of Pisa, Italy
e-mail: nicola.visciglia@unipi.it

**PLEASE NOTE**

Participants must arrive on 2 September, not later than 6 p.m.

**POETIC TOUCH**

According to legend, Erice, son of Venus and Neptune, founded a small town on top of a mountain (750 metres above sea level) more than three thousand years ago. The founder of modern history — i.e. the recording of events in a methodic and chronological sequence as they really happened without reference to mythical causes — the great Thucydides (~500 B.C.), writing about events connected with the emigration of Troy (1183 B.C.) said: "After the fall of Troy some Trojans on their escape from the Achaei arrived in Sicily by boat and as they settled near the border with the Sicanians all together they were named Elymii: their towns were Segesta and Erice." This inspired Virgil to describe the arrival of the Trojan royal family in Erice and the burial of Anchise, by his son Enea, on the coast below Erice. Homer (~1200 B.C.), Theocritus (~350 B.C.), Polybius (~200 B.C.), Virgil (~19 B.C.), Horace (~20 B.C.), and others have celebrated this magnificent spot in Sicily in their poems. During seven centuries (XII-XIX) the town of Erice was under the leadership of a local oligarchy, whose wisdom assured a long period of cultural development and economic prosperity which in turn gave rise to the many churches, monasteries and private palaces which you see today. In Erice you can admire the Castle of Venus, the Cyclopean Walls (~800 B.C.) and the Gothic Cathedral (~1300 A.D.). Erice is at present a mixture of ancient and medieval architecture. Other masterpieces of ancient civilization are to be found in the neighbourhood: at Motya (Phoenician), Segesta (Elymian), and Selinunte (Greek). On the Aegadian Islands — theatre of the decisive naval battle of the first Punic War (264-241 B.C.) — suggestive neolithic and paleolithic vestiges are still visible: the grottoes of Favignana, the carvings and murals of Levanzo.

Splendid beaches are to be found at San Vito Lo Capo, Scopello, and Cornino, and a wild and rocky coast around Monte Cofano: all at less than one hour’s drive from Erice.

More information about the other activities of the "ETTORE MAJORANA" FOUNDATION AND CENTRE FOR SCIENTIFIC CULTURE can be found on the WWW at the following address: http://www.emcom.infn.it

**DIRECTORS OF THE WORKSHOP**

L. VEGA – N. VISCIGLIA – C. ZULI

G. BUTTAZZO – F. GIANNESI – M. THÉRA

N. BURQ – F. COLOMBINI – N. TZVETKOV

A. ZICHICHI

DIRECTORS OF THE SCHOOL

PRESIDENT EMFCSC
