- Lecturer: Ch. Proctor and Professors
  - R.D. EDWARDS, University of Edinburgh, Scotland, U.K.
  - C. D. B. EDWARDS, University of Kansas, Kansas, U.S.A.
  - M. D. WROBEL, University of Toronto, Toronto, U.S.A.
  - J. D. WROBEL, University of Melbourne, Melbourne, Australia
- Editors: Jim and Alan S. W. Rodger

DESIRED TOPICS
- The Structure of the Universe and its Models
  - M. LEVINSTEIN, University of Illinois, U.S.A.
  - R. D. EDMONDS, University of Chicago, U.S.A.

EXPERIMENTAL HIGHLIGHTS
- Topics: Experimental, Theoretical, and Computational

FUTURE
- The Future of Physics
  - S. ZACHARZ, IFP, Rome, Italy

APPLICABLE TOPICS FOR NEW TALENTS
- Theoretical Physics
  - S. DE LA VAUX, CERN, Geneva, Switzerland

The organizers invite anyone interested in the future development of this field to participate in the discussions following the Lecturers. Moreover, they will invite you to the selection of the "New Talents", in the choice of the best students and in the award of the various scholarships given to the competitors.

PROGRAM OF THE SCHOOL

The second and most important aspect of the School is the actual course program. It will consist of a series of lectures, each 40 minutes long, with short breaks between them. Each lecturer will deliver 4 lectures per day, each 40 minutes long.

A full list of the topics and lecturers will be available later.
